

Good Reasons Why the follow- ing Men En- dorse John P. Collins for Student President:-

1. He stands for progressive legislation of student activities.
2. He is bound by no obligations
3. He is a capable and forceful speaker.
4. He is a leader of men.
5. He has a wide acquaintance among alumni, Columbia citizens and prominent men of power in the state.
6. He stands for Missouri's interest and has always promoted the welfare of the university.
7. He has a pleasing personality and the ability to make friends.
8. He stands for and will work for a Women's Building.
9. To substantiate this statement, he has already pledged the support of more than a dozen members of the Legislature, who will work hard for the cause. One is Frank H. Farris, floor leader in the House of Representatives.
10. Collins is from St. Louis and his acquaintance with the alumni of that city will enable him to get the co-operation of that organization to induce more graduates of St. Louis High Schools to come to the University, for it is a known fact that a great many now go to Eastern schools and not only star in athletics but also in other college activities.

The Pan-hellenic Council decided Sunday to allow to withdraw from the Pan-hellenic Baseball League any fraternity which has lost sufficient men to keep it from having a team. Each delegate to the council was asked how many men his fraternity had lost by enlistment and the "back-to-the-farm movement." The number ran from two to fifteen. Several of the fraternities are left with but from twelve to sixteen men, and one has but nine. So far, only five fraternities have decided they cannot have teams. LOVE

Has always made the world go 'round—today as yesterday—never ceasing—never hesitating. And since the beginning of time love has had one constant enemy—Intolerance.

And down the pathway of time—sometimes triumphing—sometimes smiling bravely on the very edge of the grave—but never wholly defeated, love has struggled on.

IT WAS THIS POWERFUL MOTIVE

"Love's Struggle Throughout the Ages" That was seized upon by D. W. Griffith
